What other Public Safety Computer Applications are being used in your area?

What public safety information do you want that you don't currently have, regardless of where it comes from?

Are you using License Plate Readers (LPR), and if so what software?

Are you using facial recognition, and if so what software?

Are you using sound detection software?

Are you using submit-a-tip data? Is it live and searchable?

Do you have in house GIS? If not, who is your GIS vendor?

Does your county have GIS centerline data?

Who in your jurisdictional boundaries is responsible for addressing?
